Is Your Slow PC Driving You Insane?
Hold off buying that new PC, your problem may have an easy fix.

See what's slowing down your computer by running this FREE scan.

FREE PC SCAN

Compatible with: Windows 6/7/Vista and XP (32 bit & 64 bit)

An advertisement for a free PC scan. It features a woman with her hands on her head, looking frustrated, next to a computer monitor. The text asks if a slow PC is driving her insane and offers a free scan to identify the problem. A green button with a speedometer icon says 'FREE PC SCAN'. At the bottom, it lists compatibility with Windows 6/7/Vista and XP (32 bit & 64 bit).

System Check up

It is totally free
